** Membership arm of the Academy of CDM Project Co-ordinators*

ASSOCIATION of CDM CO-ORDINATORS

Established in 1995 as Academy of Planning Supervisors with a name change in December 2005, to comply with the revised CDM regulations 2007, The Academy of CDM Project Co-ordinators and now the Association of CDM Co-ordinators have been set up to provide an institution for awareness, advice and training for individuals, companies or partnerships wishing to update and consolidate their vocational experience with health and safety competence in order to perform the functions of Duty Holders under CDM Regulations 2007 and current Directives and Regulations.

This Association is a non-profit making membership body for all CDM Co-ordinators.

MAIN AIMS

To provide selection, membership and recognised competence qualifications for further health and safety development and assistance with continuing technical and professional development certificates.

To revise awareness and provide standards and code of conduct for CDM Project Co-ordinators and other responsible persons.

To assist with problems of Co-ordination and Co-operation.

To advise Clients and other Duty Holders of their legal obligations under CDM Regulations 2007 and current Directives and Regulations.

To liaise with HSE, IOSH, CITB and other health and safety training bodies regarding procedure, education and training standards.

MEMBERSHIP

The Association of CDM Co-ordinators ensures that no individual, company or partnership is accepted or listed as registered members without confirmation of competency relevant to current health and safety requirements. The Association strongly believes that no credible competency trail achieved since 1995 proves incompetency and weak links in every temporary or permanent work place.

See website www.acopc.org for further details and levels of competency.

ASSOCIATION of CDM CO-ORDINATORS

What does registered membership of the Academy offer you -

1. Registered membership of an organisation of competent and experienced members.
2. There will be two grades of Registered Membership:
Grade A Members who meet the standard requirements for large or complex projects.
Grade B Members who meet the standard requirements for smaller type projects.
3. A help-line with assistance from competent and experienced Co-ordinators in many locations.
4. An opportunity to be assessed and vetted for the Register of Members and Expert Witnesses on the Association / Academy "Find a CDM Co-ordinator" website.
5. Periodic news sheets.
6. Assistance in discussing cheaper professional indemnity insurance.
7. The back-up of the Association in health and safety disputes or litigation.
8. Subsidised training for relevant health and safety.
9. An opportunity for selected registered members to become a member of the "panel" of Co-ordinators, chosen to work on projects handled for clients and other parties submitting schemes for assistance from the Academy.
10. A chance to move forward in a "hands-on" and credible organisation which upholds the credibility of CDM Project Co-ordinators and responsible persons under the regulations.
11. An organisation that cares about the long term vocation for CDM Co-ordinators and a credible competency assessment for all Co-ordinators and Consultants and responsible persons under the revised regulations.
